

RESIDENTS: NOTICE OF WATER SHUT OFF

**RE: James Street & Caradoc Street Residents
Strathroy**

DATES: Monday, June 15, 2020

**TIME: 8:00 AM – 10:00 AM James St. (Caradoc to
Frank Street)**

**8:00 AM – 10:00 AM Caradoc St. (Centre to
Metcalf Street)**

SORRY FOR THE INCONVENIENCE

**YOUR CO-OPERATION IN THIS MATTER IS GREATLY
APPRECIATED.**

THANK YOU

In order to complete maintenance/repairs to our water distribution system, it will be necessary to shut off the water supply to your premises if you have received this notice. Prior to this, please draw sufficient water into containers for use during the interruption and if possible, turn off the main shut off valve at the meter in your building to prevent accidental usage. If you have a fire sprinkler system, it would be advisable for you to notify your insurance company of the outage.

When full pressure is restored, you may notice air or discolored water coming from your taps, which is normal. A water tap should be opened in the basement at the laundry tub to flush the system before regular water consumption is resumed.

Residents are also advised to check the condition of their water prior to laundering.

Your understanding and co-operation is appreciated.
