The Supplier must be notified, in writing by mail and/or email, of the final suspension decision made by the PRP.

If the recommendation for suspension is approved, the notification letter must contain:

- (a) the length of the suspension period and the scope of the suspension;
- (b) full details as to the reasons for the suspension, including copies of any documents or correspondence to support such a suspension; and
- (c) notice of the Supplier's right to apply for reinstatement within the prescribed time period and the process for requesting such a reinstatement.

5. Application for Reinstatement

A suspended Supplier may apply for reinstatement upon the completion of half of the original suspension period. For example, if the original suspension period was two years, the Supplier may apply for reinstatement after one year.

In order to apply for reinstatement, the Supplier must submit a written case for reinstatement to Procurement Services, including supporting documentation, if

necessary, that provides reasons why the original reason for the suspension would no longer prove a risk for the Municipality.

- (a) Applications for reinstatement are to be reviewed by the PRP. If the PRP determines that allowing the Supplier the opportunity to participate in the Municipality's Procurement Processes would no longer expose the Municipality to risk, then the application for reinstatement may be approved.
- (b) The Supplier must be notified, in writing by mail and/or email, of the final reinstatement decision made by the PRP.

6. Suspended Suppliers List

Procurement Services must maintain an up-to-date and current list of all suspended Suppliers. Any Supplier that is owned or controlled by the same individual(s) that owned or controlled a suspended Supplier at the time it was suspended is also considered suspended.

The list should contain, at a minimum:

- (a) the full name of the Supplier or individual, where an individual is suspended;
- (b) the names of the directors and officers of the Supplier, if applicable;
- (c) the reasons for the suspension;
- (d) the scope of the suspension (i.e. blanket suspension or specific deliverables); and
- (e) the length of the suspension period and the date of the expiry of the suspension period.

For any competitive Procurement Process, Procurement Services and/or must check the suspended Suppliers list to ensure that bids are not accepted from suspended Suppliers.
