OPTIONAL ANNUAL REPORT TEMPLATE

Drinking-Water System Number: Drinking-Water System Name: Drinking-Water System Owner: Drinking-Water System Category: Period being reported:

210003985
Mount Brydges Water Works
Municipality of Strathroy-Caradoc
Large Municipal Residential
January 1, 2009 to December 31, 2009

Complete if your Category is Large Municipal Residential or Small Municipal Residential	Complete for all other Categories.
Does your Drinking-Water System serve more than 10,000 people? Yes [] No [X]	Number of Designated Facilities served:
Is your annual report available to the public at no charge on a web site on the Internet? Yes [X] No []	Did you provide a copy of your annual report to all Designated Facilities you serve? Yes [] No []
Location where Summary Report required under O. Reg. 170/03 Schedule 22 will be available for inspection.	Number of Interested Authorities you report to:
Municipality of Strathroy-Caradoc 351 Frances Street Strathroy, Ontario N6G 2L7	Did you provide a copy of your annual report to all Interested Authorities you report to for each Designated Facility? Yes [] No []

Note: For the following tables below, additional rows or columns may be added or an appendix may be attached to the report

List all Drinking-Water Systems (if any), which receive all of their drinking water from your system:

Drinking Water System Name	Drinking Water System Number
N/A	

Did you provide a copy of your annual report to all Drinking-Water System owners that are connected to you and to whom you provide all of its drinking water?

Yes [] No [X]

charge.	
[] Public access/notice via the web	
[] Public access/notice via Government Office	
[X] Public access/notice via a newspaper	
[X] Public access/notice via Public Request	
[] Public access/notice via a Public Library	
[] Public access/notice via other method	

Indicate how you notified system users that your annual report is available, and is free of

Describe your Drinking-Water System

The Mount Brydges Water Supply is obtained from two deep drilled wells operating under the Permit to Take Water # 5675-6KBMC5 and has a total rated capacity of 3110m3/d.

Well Pumphouse

- -a pump house located at 9110 Oriole Drive serving Wells #1 and #2, housing control panels, valves, pressure gauges, flow meters and including:
- a sodium hypochlorite disinfection system consisting of one 170L capacity sodium hypochlorite solution storage tank with containment and two positive displacement chemical metering pumps with a feed line discharging into the well pump header at the exit from the pump house, rated at 283 L/d and 1034 kPa and 454L/d and 690 kPa respectively;
- a 45 kW 60 Hz propane fired stand-by emergency generator set, serving the well water pump house.
- One on-line residual chlorine analyzer, and one on line turbidimeter

Transmission Main

- 250 mm nominal diameter water main approximately 2.4 km long connecting the water supply from the wells to the Reservoir,
- 150 mm retention loop watermain to feed customers in close proximatety to the well house

Reservoir

one 1639m3 inground storage reservoir with two cells located at 8673 Glendon Drive Mount Brydges, including reservoir drainage and overflow facilities;

High Lift Pumping Station

- highlift pumping station is joined to the reservoir by a common wall and consists of the following:
- four vertical centrifugal pumps each complete with suction piece, bowl assembly, impeller shafting and motor complete with valves (gate, solenoid controlled hydraulic check and pressure reducing), piping sampling tap and control panels, performance ratings of pumps are as follows:
- pump 1 rating capacity of 41 L/s, rating total head of 51.2m, pump 2 capacity of 60 L/s, rating total head of 51.2m, and pumps 3 and 4 each with rating capacity of 58.13 L/s, and rating total head each of 63.4m.
- chlorine residual is monitored entering and leaving the reservoir

The highlift pumps pump to the distribution system and to the storage tower that has a holding capacity of 720 m3. The tower also is equipped with chlorine residual monitoring.

List all water treatment chemicals used over this repo	rting	period
--	-------	--------

Sodium Hypochlorite	

Were any significant expenses incurred to?

- [] Install required equipment
- [X] Repair required equipment
- [X] Replace required equipment

Please provide a brief description and a breakdown of monetary expenses incurred

- -Construction started on a new water transmission main from Arva to the Mount Brydges Well House. It is anticipated that the new line will be operational in spring of 2010. The existing wells will be decommissioned at that time.
- -The Mount Brydges Water System was extended down Gibson Road, Longwoods, Muncey and Mill Road to provide water to an area that had an insufficient well supply. This new watermain was operational in September of 2009.

Provide details on the notices submitted in accordance with subsection 18(1) of the Safe Drinking-Water Act or section 16-4 of Schedule 16 of O.Reg.170/03 and reported to Spills Action Centre
