<b>Meeting Date:</b>	<b>January 13, 2026</b>
<b>Department:</b>	<b>Financial Services</b>
<b>Report No.:</b>	<b>FIN-2026-01</b>
<b>Submitted by:</b>	Lindsay Laskey, Manager of Accounting - Deputy Treasurer William Dakin, Director of IT/Finance - Treasurer
<b>Approved by:</b>	Rob Browning, Chief Administrative Officer
<b>SUBJECT:</b>	<b>2026 Proposed Budget</b>

---

**RECOMMENDATION: THAT: any amendments proposed by Council be sent to the Clerk in writing before the prescribed deadline.**

## **BACKGROUND:**

Historically, the annual municipal budget has been established by the Finance Committee and recommended to Council as a whole for approval. In May of 2025, the Province of Ontario granted Strathroy-Caradoc Strong Mayor Powers, which significantly changed the Municipality's budgeting process. At the December 15, 2025 meeting, Council received for information report FIN-2025-24 "Guide to Strong Mayor's Budget", describing the new framework Strathroy-Caradoc must follow when establishing the annual municipal budget.

As per the new legislation, the 2026 Proposed Budget has been prepared by the Mayor, with consultation from staff. The Mayor will be presenting his budget to Council. Any amendments proposed by Council must be done in writing and submitted to the Clerk before the prescribed deadline.

## **COMMENTS:**

### **2026 Proposed Operating Budget Summary**

Staff were tasked with preparing their departmental operating budgets with the directive of maintaining existing levels of service currently being provided by the Municipality (base budgets). Recommended changes in service levels were provided as "a la carte" options that the Mayor could choose to add to the base budget. The "2026 Budget Template" outlines the high-level departmental operating budgets and also provides the proposed service level changes recommended by staff. Recommended service level changes that have been included in the 2026 Proposed Operating Budget have been highlighted in green, and those that have not been included are highlighted in red. Business cases for all proposed service level changes (included and not included) have been provided for Council's reference.

In addition to departmental base budgets, the following increases in service levels have been included in the 2026 Proposed Operating Budget:

- Asset Analyst – new position - \$130,087
- Caradoc Community Centre – Pilot Project for Seniors - \$74,000
- Parks (Line Trimming) – 3 Seasonal Staff (800 hours) - \$68,494
- Communications Assistant – new position - \$100,663
- Customer Service Representative – new position (September 2026) – \$26,728
- Customer Service Strategy – hardware, software and training - \$22,415

The “2026 Proposed Operating Budget” provides a summary of the breakdown of operating taxation and other non-taxation revenues by department. The 2026 Proposed Operating Budget totals \$51,626,630; of which \$26,044,139 is financed by taxation, and \$25,582,491 is financed by non-taxation revenues. ***This represents an increase in the proposed operating tax levy of \$2,682,187, or 11.48%.***

Details of departmental operating budgets have been provided for Council’s reference in “2026 Proposed Operating Budget – Details”.

### **2026 Proposed Capital Budget Summary**

Please refer to “2026 Proposed Capital Budget” for a complete list of projects, and a list of projects that were recommended by staff, but ultimately not included in the Proposed Capital Budget.

A high-level summary of the projects proposed include:

- Fleet program replacements - \$475,000
- Arena upgrades and equipment replacement - \$1,289,000
- Parks and sports field improvements - \$922,000
- 137 Frank Street improvements - \$1,000,000
- Water & Wastewater infrastructure - \$2,760,000
- Roads, Storm and Drainage infrastructure - \$5,925,034
- Tri-Township Arena upgrades - \$250,000
- Police equipment upgrades - \$1,412,000

The 2026 Proposed Capital Budget totals \$14,521,534, of which \$2,101,855 is financed by taxation.

An effort was made to utilize reserve funds, grants and debt wherever prudent. As a result, proposed capital taxation required has decreased from \$3,088,650 in 2025, to \$2,101,855 in 2026; ***a proposed capital tax levy decrease of \$986,795 or 31.95%.***

### **2026 Proposed Consolidated Budget Summary**

Consolidating both Proposed Operating and Capital Budgets, and considering other sources of revenue available to the Municipality that has been applied to the “Treasury” department budget (i.e./ Ontario Municipal Partnership Fund, Canadian Community Benefit Fund, investment interest income etc.); the Municipality will require total taxation of \$26,227,594 in 2026. ***This represents a proposed consolidated tax levy increase of \$1,799,734 or 7.37% over 2025.***

Due to increases in the industrial and commercial sectors, Strathroy-Caradoc's MPAC Assessment grew by 2.72% for 2026. (Recall; 2025 assessment growth was only 1.00%). ***Applying the required taxation to the Municipal assessment, the overall proposed 2026 tax rate increase is 4.53%.***

It is important to note that the 4.53% tax rate being proposed for 2026 is only for the municipal portion of the levy. In 2025, the municipal level was 55% of the total tax levy; the County levy was 32% and the Provincial Education levy was 13%. These percentages should not change much for 2026, unless there is a significant change in the level for one or more of the 3 components. The Province has recently notified all municipalities that the Education levy for 2026 will remain unchanged from 2025. Middlesex County has presented a draft levy increase of 3.78%.

### **STRATEGIC PLAN ALIGNMENT:**

**Local Infrastructure and Capital Investment:** Households and businesses in Strathroy-Caradoc will be supported by reliable, financially responsible, and well-maintained infrastructure networks.

**Economic Development, Industry, and Jobs:** Strathroy-Caradoc will have a diverse tax base and be a place that offers a variety of economic opportunities to current and prospective residents and businesses.

**Managing the Challenges of Growth for the Municipal Organization:** Strathroy-Caradoc will be an inclusive community where growth is managed to accommodate a range of needs and optimize municipal resources. We are committed to maintaining operational efficiency and economies of scale through these times of change.

### **CONSULTATION:**

Senior Management Team

Mayor

### **FINANCIAL IMPLICATIONS:**

Approval of the 2026 Proposed Budget will allow staff to prepare the 2026 Tax Rate.

Ratepayers in Strathroy-Caradoc would see an increase of \$36.42 per every \$100,000 of assessed value. For example, \$145.68 on a \$400,000 house, or \$364.19 on a \$1,000,000 farm property.

MUNICIPALITY OF  
STRATHROY-CARADOC

# 2026 Proposed Municipal Budget

January 13, 2026

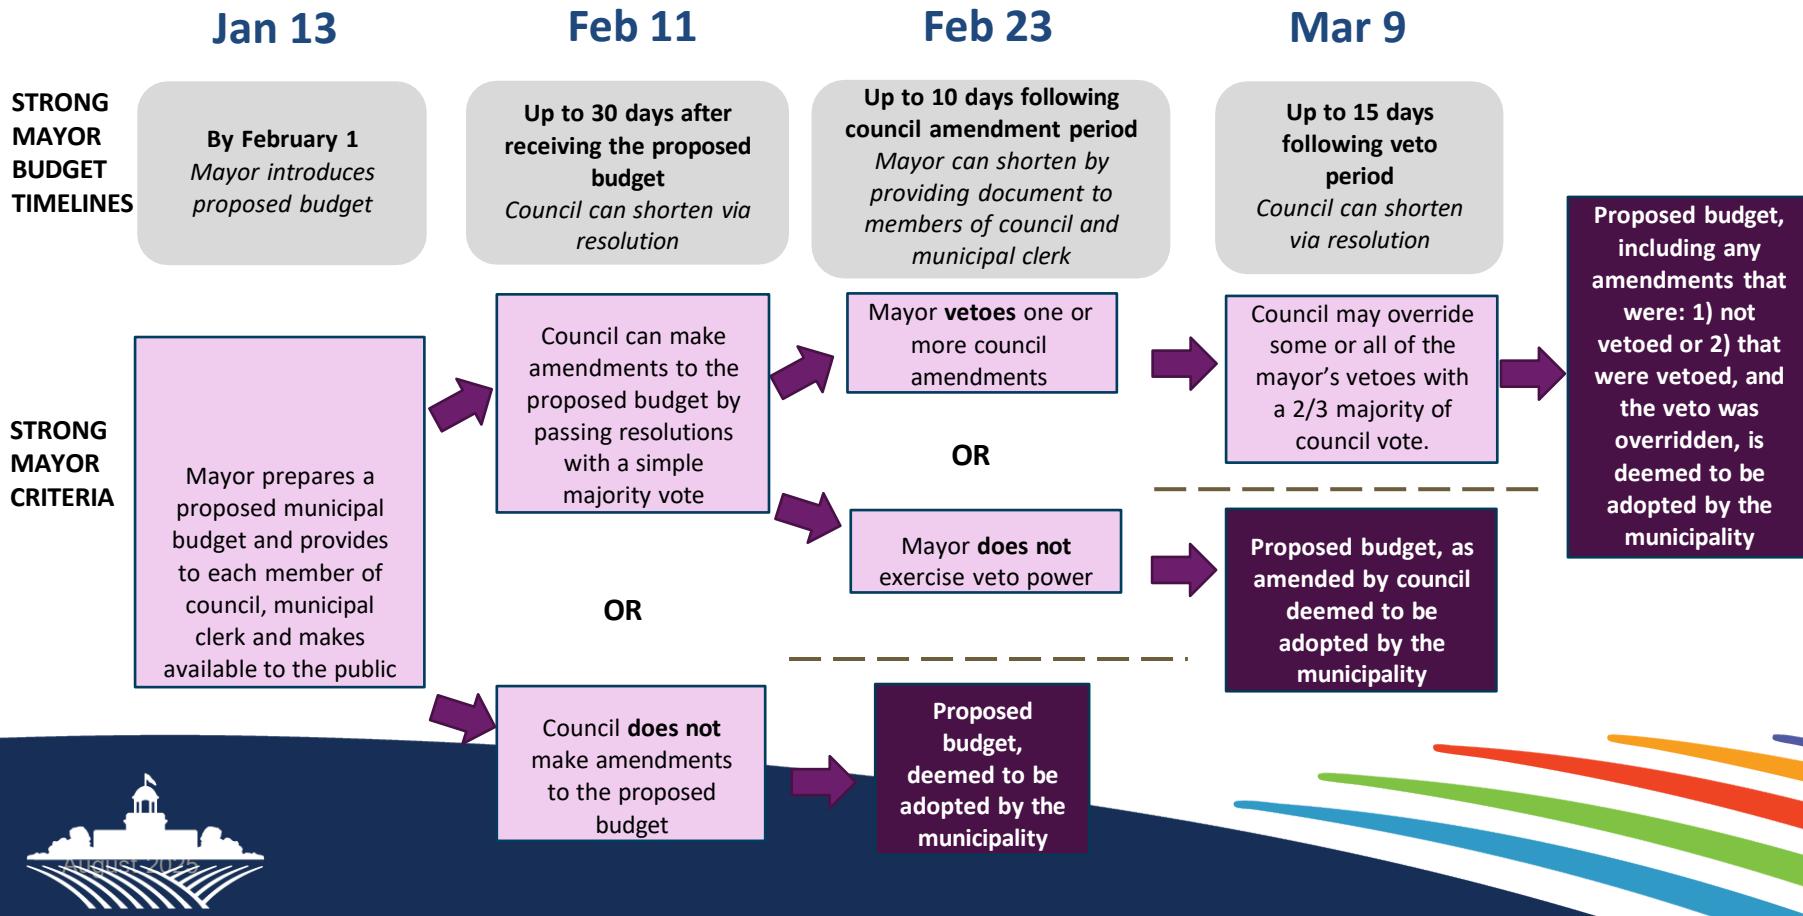

# Agenda

- Strong Mayor Powers Budget
- Economic & policy context
- Key financial challenges
- Strategic opportunities
- Budget framework & tools
- What does it mean?
- Next steps & timeline

# Visual - Strong Mayor Budget Process

# Economic & Policy Context

- Inflation & interest rate pressures
- Provincial funding changes
- Housing & demographic shifts
- Infrastructure funding gaps

# Operating Cost Pressures

- Wage pressures: +2.5%
- Utility costs: +1.2%
- Insurance & materials: +0.8%
- Contract escalation: +0.5%
- Total incremental pressure: +5.0%
- Level of service expectations – doing more for same or less
- Service Delivery Review/Four Year Staff Plan – 3 of 6 New Positions for 2026 have been included

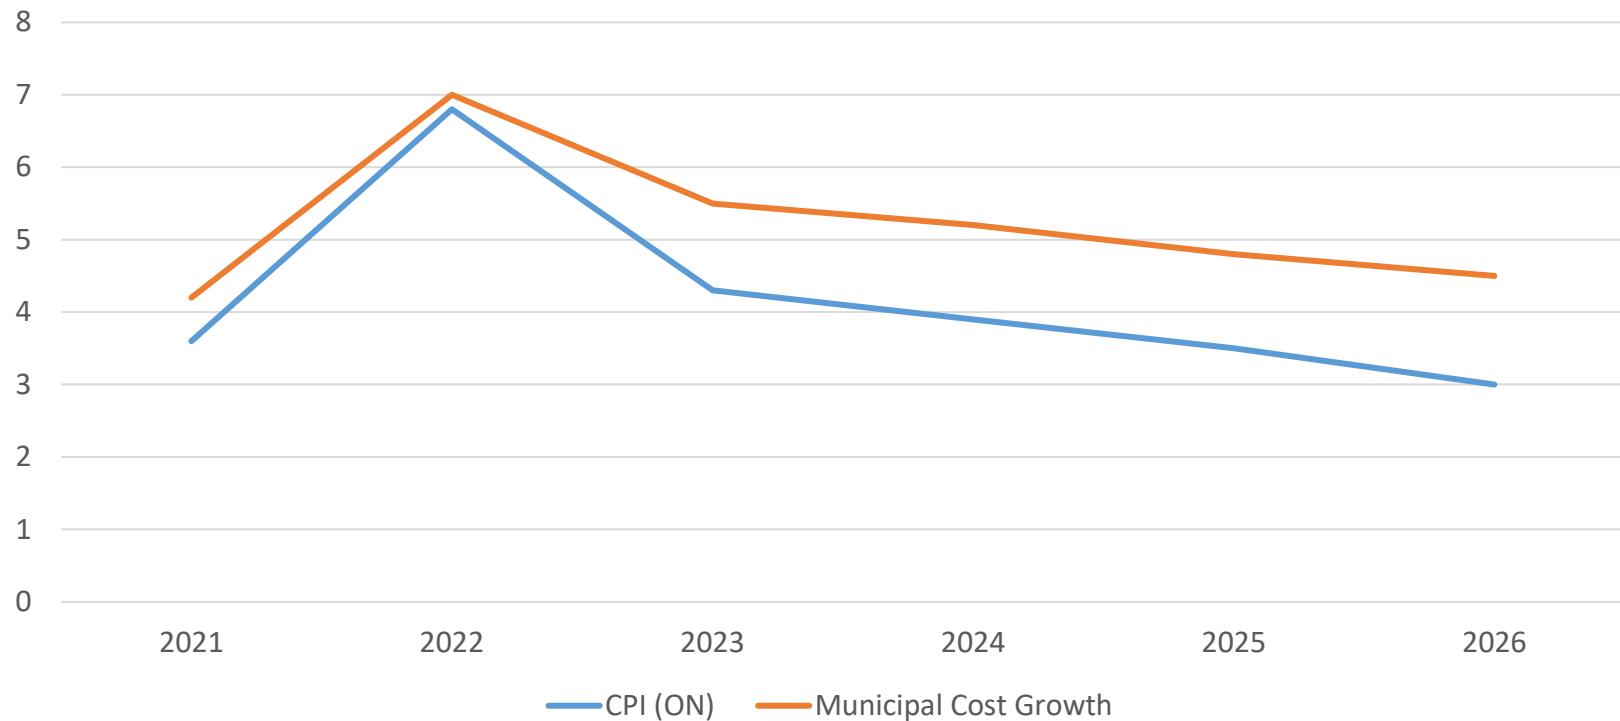

# Annual Capital Requirement & Infrastructure Cost Pressures

- Asset Management Plan - the Municipality must allocate approximately \$13.18 million annually to address capital requirements
- Have been allocating \$3 million annually
- Construction inflation: ~5.5% forecast for 2026

## Ontario Consumer Price Index (CPI) vs Municipal Cost Growth (labour, utilities)

# Strategic Opportunities

- Use reserves strategically
- Use debt strategically
- Pursue intergovernmental grants
- Continue to modernize & digitize services
- Shared services & regional collaboration
- Revenue diversification

# Current Reserve/Reserve Fund Position

Reserve, Reserve Fund, Deferred Revenue Source	2025 Opening Balance	Allocated to Previous Year Capital Projects	2025 Closing (before additions & interest)
Development Charges	19,502,278	5,874,000	13,628,278
CCBF/Gas Tax	2,254,473	-	2,254,473
Parkland	654,676	-	654,676
Deferred Revenue	1,458,337	-	1,458,337
Obligatory Reserves	46,463,607	24,121,000	22,342,607
Discretionary Reserves	4,278,934	-	4,278,934
<b>TOTAL</b>	<b>\$ 74,612,306</b>	<b>\$ 29,995,000</b>	<b>\$ 44,617,306</b>

- Does not include 2025 budgeted transfers to reserves or interest income allocation

# Current Debt Position

Existing Debt:	Bylaw No.				Estimated			2026	Estimated

# Revenue Constraints & Property Tax Sensitivities- Capital

- Total 2026 Proposed Capital Budget = \$14,521,534
- Notable projects include:
  - Fleet program replacements - \$475,000
  - Arena upgrades and equipment replacement - \$1,289,000
  - Parks and sports field improvements - \$922,000
  - 137 Frank Street improvements - \$1,000,000
  - Water & Wastewater infrastructure - \$2,760,000
  - Roads, Storm and Drainage infrastructure - \$5,925,034
  - Tri-Township Arena upgrades - \$250,000
  - Police equipment upgrades - \$1,412,000
- “2026 Capital Discussion” – provides list of proposed projects, and additional projects requested by departments
- Utilize reserve funds, grants and debt wherever prudent

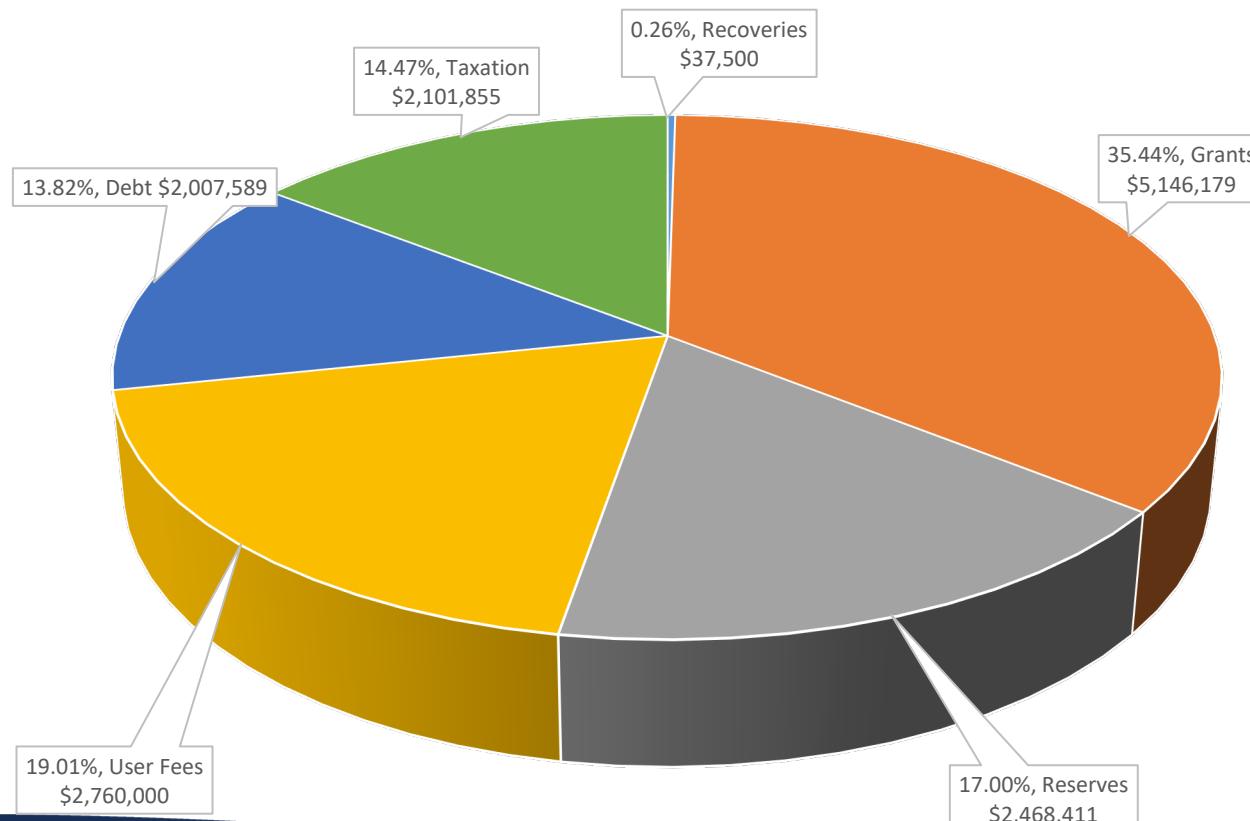

2025 Capital Taxation	\$	3,088,650
2026 Proposed Capital Taxation	\$	2,101,855
Capital Levy \$ Decrease	\$	(986,795)
Capital Levy % Decrease		-31.95%

## 2026 Proposed Capital Projects by Department

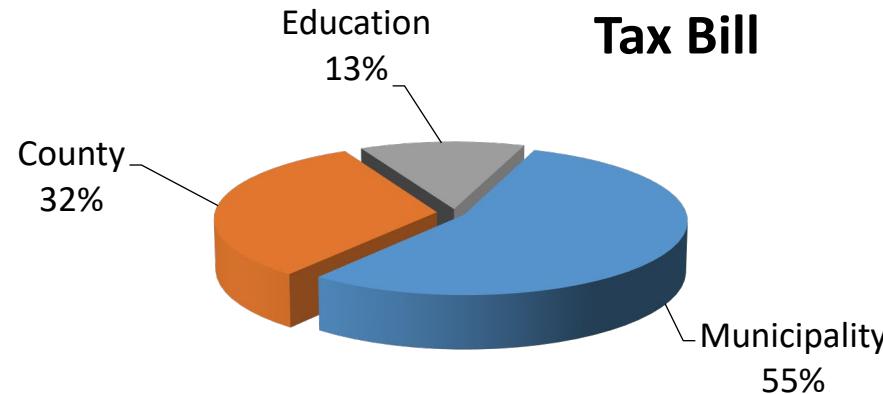

## 2026 Proposed Capital Revenue by Source

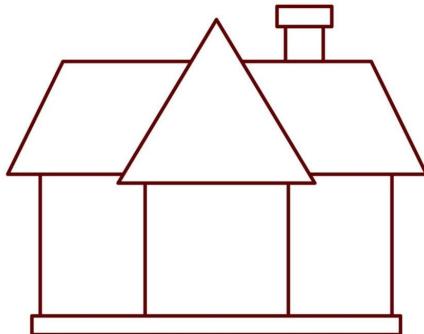

# Tax Rate Breakdown

In 2025, the Municipal levy was 55% of the total tax levy (County 32%, Education 13%) These percentages should not change much unless there is a significant change in the levy for one or more of the above jurisdictions.

# What does it Mean to Property Owners?

**Tax Rate Increase = 4.53%**

**\$145.68**

Tax increase on a residential property  
unchanged assessment of \$400,000

**\$364.19**

Tax increase on a farm property  
unchanged assessment of \$1 million

## Residential Comparisons - Detached Bungalow - by Location (cont'd)

<b>Request</b> <b>Department Version</b>	<b>Asset Analyst</b> <div style="border: 1px solid black; padding: 2px; display: inline-block;">Finance and Treasury</div>	<b>Division</b> <div style="border: 1px solid black; padding: 2px; display: inline-block;">Finance</div>	<b>Year</b> <div style="border: 1px solid black; padding: 2px; display: inline-block;">2026</div>
<b>Description</b>			
<b>I. Executive Summary - Overview of Proposal (How/ Why)</b>			
<p>The addition of an Asset Analyst was approved in principle through the Staffing Plan presented to Council in 2025. As the legislation continues to evolve around Asset Management Plans (AMP) and the priority place on an up-to-date AMP to be eligible for Provincial and Federal Funding, this position becomes a need. Without this position the Municipality will fall further behind or require more spending and reliance on consultant work.</p>			
<b>II. Background - Current Service Level (Describe the existing level of service provided)</b>			
<p>Currently, this work is being done by the director on a as need to basis and is augmented using consultants to keep us current. The municipality is just meeting its obligations under the legislation and is not getting out in front of an action mode but rather reactionary.</p>			
<b>III. Risks - (What are the risks/consequences of not implementing the change? Is there urgency?)</b>			
<p>Failing to hire an Asset Analyst poses significant risks to the municipality's ability to effectively manage its infrastructure and long-term financial sustainability. Without dedicated expertise in asset data collection, analysis, and lifecycle planning, the municipality risks making uninformed investment decisions, underfunding critical maintenance, and accelerating asset deterioration. This can lead to increased service disruptions, higher emergency repair costs, and non-compliance with asset management regulations, undermining public trust and fiscal responsibility.</p>			
<b>IV. Recommendation - Proposed Service Level Impact</b>			
<p>Hiring an Asset Analyst provides the municipality with the expertise needed to make data-driven decisions that improve infrastructure performance and financial efficiency. An analyst ensures accurate asset inventories, assesses lifecycle costs, and helps prioritize maintenance and capital investments based on evidence rather than assumptions. This leads to optimized use of taxpayer dollars, extended asset lifespans, and reduced risk of unexpected failures. Additionally, an Asset Analyst supports compliance with provincial asset management requirements and enhances transparency, accountability, and long-term sustainability in municipal operations.</p>

**Description**

**I. Executive Summary - Overview of Proposal (How/ Why)**

The addition of a Business Analyst was approved in principle through the Staffing Plan presented to Council in 2025. As the use of technology and the complexity of the software continues to evolve, the need to ensure the innovative technology will best the best investment and integrate with currently owned technology this position becomes a need. Without this position the Municipality will fall further behind or require more spending and reliance on consultant work.

**II. Background - Current Service Level (Describe the existing level of service provided)**

Currently, this work is being done by the manager and is pulling them away from much needed upgrading to current systems. The municipality is just maintaining its current systems and not ensuring new investment will do what they are to do or not be fully utilized.

**III. Risks - (What are the risks/consequences of not implementing the change? Is there urgency?)**

Not hiring a Business Analyst in the IT department exposes the municipality to significant operational and strategic risks. Without a dedicated professional to translate business needs into technical requirements, projects may suffer from unclear objectives, scope creep, and misaligned outcomes. This can lead to inefficient use of technology investments, delays in service modernization, and solutions that fail to meet departmental or community needs. Additionally, the absence of a Business Analyst weakens collaboration between IT and other departments, reduces data-driven decision-making, and increases the likelihood of costly rework or project failure, undermining digital transformation goals and public service delivery.

**IV. Recommendation - Proposed Service Level Impact**

Hiring a Business Analyst in the IT department provides the municipality with a critical link between technology and business operations. A Business Analyst ensures that IT initiatives align with organizational goals, clearly define requirements, and deliver solutions that improve efficiency and service quality. They help streamline processes, identify cost-saving opportunities, and support data-driven decision-making. Their analytical and communication skills bridge gaps between departments, reduce project risks, and enhance user satisfaction. Overall, a Business Analyst enables the municipality to maximize the value of its technological investments and advance its digital transformation in a strategic, coordinated, and cost-effective manner.

Request	New FTE: PW Supervisor		
Department	Public Works	Division	Engineering & Public Works
Version	01	Year	2026
<b>Description</b>			
<b>I. Executive Summary - Overview of Proposal (How/ Why)</b> <p>Addition of 1x FTE for a <u>Supervisor of Public Works</u> as per Staffing Plan 2025-2028, approved by Council at July 7<sup>th</sup> 2025 Council Meeting.</p> <p>The Public Works (PW) Department is experiencing growing operational pressures due to aging infrastructure, increasing service expectations, expanding capital projects and programs and increasing maintenance requirements. The PW Manager is stretched thin, responsible for strategic oversight, planning, project delivery, budgeting, emergency response and day-to- day operations without dedicated frontline supervisory support.</p> <p>A dedicated <b>Supervisor of Public Works</b> is required to provide day-to-day leadership, operational oversight, and direct support to PW operators. This role bridges a critical operational gap between day-to-day field operations and management, enabling the PW Manager to focus on key, strategic operational issues such as asset management, infrastructure planning, program delivery and while supporting Senior Management.</p> <p><b>Why This Role Is Needed:</b></p> <ul style="list-style-type: none"> <li><b>Increased Operational Demands:</b> Aging infrastructure and a larger capital workload have intensified pressure on staff.</li> <li><b>Improved Efficiency of Field Operations:</b> Enhanced supervision is expected to improve coordination and execution of field operations such as road maintenance tasks (e.g., pothole repair, ditching, brushing).</li> <li><b>Enhanced Safety and Compliance:</b> Compliance with OHSA regulations and internal policies (e.g., hours of service, SOPs, incident reporting).</li> <li><b>Emergency Response Coordination:</b> Events like snowstorms, flooding, and infrastructure failures require structured responses.</li> <li><b>Improved Public and Stakeholder Communication:</b> The Supervisor would serve as the first point of contact for resident concerns, property impacts, and utility coordination—relieving pressure on the PW Manager.</li> </ul> <p><b>Anticipated Responsibilities:</b></p> <ul style="list-style-type: none"> <li>Provide frontline supervision for 12–16 PW operators, including daily task scheduling via work order software (e.g., Citywide).</li> <li>Act as the primary point of contact for operational issues, reporting directly to the PW Manager</li> <li>Lead maintenance crews on tasks such as snow removal, pothole repair, signage, ditching, grading, tree maintenance, and brushing.</li> <li>Monitor and document compliance with <b>Minimum Maintenance Standards</b> and internal service levels.</li> <li>Oversee and inspect <b>Road Work Permits</b> and coordinate with utilities and contractors during capital maintenance activities.</li> <li>Manage <b>health and safety</b> in the field: SOPs, hazard assessments, incident response, driving hours, circle checks, and equipment logs.</li> <li>Support asset management by overseeing inspections, data collection, and system entry.</li> <li>Coordinate staff training, performance monitoring, and development plans</li> <li>Act as a liaison with residents and property owners, addressing inquiries and resolving concerns in the field.</li> </ul>			

**Why This Role Is Needed:**

- **Increased Operational Demands:** Aging infrastructure and a larger capital workload have intensified pressure on staff.
- **Improved Efficiency of Field Operations:** Enhanced supervision is expected to improve coordination and execution of field operations such as road maintenance tasks (e.g., pothole repair, ditching, brushing).
- **Enhanced Safety and Compliance:** Compliance with OHSA regulations and internal policies (e.g., hours of service, SOPs, incident reporting).
- **Emergency Response Coordination:** Events like snowstorms, flooding, and infrastructure failures require structured responses.

**Improved Public and Stakeholder Communication:** The Supervisor would serve as the first point of contact for resident concerns, property impacts, and utility coordination—relieving pressure on the PW Manager.

**II. Background - Current Service Level (Describe the existing level of service provided)**

Currently there is no Supervisor of Public Works. The role of staff supervision currently falls on the Manager of Public Works or the Director of Engineering and Public Works in his absence.

Supervision takes time away from important management tasks including long-term planning, strategy and asset management.

**III. Risks - (What are the risks/consequences of not implementing the change? Is there urgency?)**

- **Increased Staff Burnout:** Aging infrastructure and a larger capital workload have intensified pressure on management staff.
- **Efficiency of Field Operations:** Strain on supervision may negatively impact coordination and execution of field operations such as road maintenance tasks (e.g., pothole repair, ditching, brushing)
- **Inefficient Asset Management and Strategic Planning:** Increased workloads have reduced staff ability to dedicate time to asset management and long-term strategic planning. This may result in inefficient long-term asset management practices.
- **Reduced Safety and Compliance:** Strained frontline supervision can result in less than rigorous compliance with OHSA regulations and internal policies.
- **Emergency Response Coordination:** Events like snowstorms, flooding, and infrastructure failures require structured responses.

- **Poor Public and Stakeholder Communication:** Strained frontline supervision can result in poor communication and coordination of resident concerns, property impacts, utility coordination etc.

**IV. Recommendation - Proposed Service Level Impact**

### Change in Service Level

<b>Request Department Version</b>	New Transfer to PW Capital Reserve		
	Public Works	Division	Engineering & Public Works
	01	Year	2026

#### Description

##### **I. Executive Summary - Overview of Proposal (How/ Why)**

Addition of annual \$500K transfer to Public Works Reserves for the funding of large capital roads projects such as road reconstructions, new road construction and Downtown Beautification.

This is the first of several anticipated increases to the annual Capital Transfer to Public Works Reserves.

##### **II. Background - Current Service Level (Describe the existing level of service provided)**

Large capital projects are currently intended to be fully funded on a case-by-case basis at the Through a combination of factors including escalating construction costs, change orders and

Capital projects generally do not utilize debt financing to amortize capital costs over a period of

- On-going, long-term negative PW Roads reserve balances
- Under-funded or entirely unfunded capital road program
- Inability to undertake any major road reconstruction projects (ie. downtown streetscaping, Head St. reconstruction)
  
- Poorly maintained road infrastructure
- Higher road maintenance costs
- Increased risk to public health & safety
  
- Higher short-term tax fluctuations

### Change in Service Level

##### **IV. Recommendation - Proposed Service Level Impact**

Recommend addition of annual \$500K capital transfer to Public Works Reserves for the funding of large capital roads projects, to be increased in future years to ~\$2M capital transfer annually.

Request	4. Pilot Project – Active Days - Seniors Programming Caradoc Community Centre		
Department Version	Community and Development Services	Division	Community Services
		Year	2026

Description	
<b>I. Executive Summary - Overview of Proposal (How/ Why)</b>	
<p>This proposal outlines a pilot initiative titled “<b>Active Days</b>”, a weekday daytime program designed to enhance the overall well-being of seniors in the community. The program will be delivered at the Caradoc Community Centre and will offer a variety of physical, creative, social, and culinary activities.</p> <p>The purpose of the initiative is to provide older adults with accessible opportunities that support physical health, cognitive stimulation, and emotional connection. By fostering social engagement and lifelong learning in a safe, welcoming environment, the program seeks to reduce isolation, encourage active living, and strengthen community ties.</p> <p>This program is being presented in response to Council’s motion directing staff to develop a pilot project that encapsulates a trial period, with the associated operating funds to be considered during the 2026 budget deliberations. The pilot approach will allow staff to test program delivery, evaluate participation and outcomes, and report back to Council with recommendations on long-term implementation.</p>	
<b>II. Background - Current Service Level (Describe the existing level of service provided)</b>	
<p>The Municipality provides seniors programming year-round at various venues; however, offerings are reduced or unavailable during the summer months due to space limitations and the operation of summer camps.</p> <p>In late 2024, Council directed staff to conduct focus groups with seniors to identify gaps in existing services. These sessions were held in Q1 of 2025, with findings presented to Council at the end of Q2. A key theme that emerged was a strong desire for a dedicated location to support seniors' programming.</p>	
<b>III. Risks - (What are the risks/consequences of not implementing the change? Is there urgency?)</b>	
<p>Community Needs Go Unmet</p> <ul style="list-style-type: none"> <li>Seniors indicated they wanted programs and a dedicated space. If we don’t act, these needs remain unaddressed.</li> </ul> <p>Increased Isolation</p> <ul style="list-style-type: none"> <li>Without daytime programs, older adults have fewer opportunities to stay active, socialize, and engage in meaningful activities.</li> </ul> <p>Summer Gaps Persist</p> <ul style="list-style-type: none"> <li>Seniors' programming is already limited in the summer because of space conflicts with camps. Not running this pilot means these gaps continue.</li> </ul> <p>Missed Chance to Learn</p> <ul style="list-style-type: none"> <li>The pilot would show whether the program works and who participates. Without it, we won’t have evidence to guide future decisions.</li> </ul> <p>Strategic Priorities Are Weakened</p> <ul style="list-style-type: none"> <li>The Municipality’s goals include wellness and customer service. Not offering this pilot makes it harder to deliver on those goals.</li> </ul>	
<b>IV. Recommendation - Proposed Service Level Impact</b>	

The introduction of the “**Active Days**” pilot would expand the Municipality’s current seniors programming by:

- **Adding Consistency** – Programs would be offered on weekdays during daytime hours, filling current seasonal and space-related gaps (particularly in the summer).
- **Centralizing Delivery** – Activities would be hosted primarily at the Caradoc Community Centre, creating a dedicated seniors location as requested, but would not be the only location for seniors programming.
- **Increasing Variety** – A broader mix of physical, creative, social, and culinary activities would be available, reaching a wider range of interests and abilities.
- **Supporting Growth in Demand** – Provides capacity to serve more seniors on a regular basis, responding directly to community requests for expanded programming.
- **Pilot-Based Flexibility** – As a trial initiative, service levels can be adjusted based on participation, feedback, and budget capacity before committing to long-term delivery.

**Option 1:** Active Days Senior Committee. - Minimal cost due to no staffing component or other expenses. Money to cover hard expenses like cleaners, and some seed money to assist the committee

**Option 2:** Active Days Contract Full Time – Largest expense but provides the greatest opportunity for the program to be impactful, reliable, successful, and safe.

**Option 3:** Active Days Part Time - Cost-effective plan, but reduces quantity and quality of program.

**Municipality of Strathroy-Caradoc**  
Change in Service Level

<b>Request Department</b> Version	1. Coordinator of Parks and Facilities		
	Community and Development Services	Division	Community Services
		Year	2026

**Description**

**I. Executive Summary - Overview of Proposal (How/ Why)**

The leadership transition in 2025, which elevated Supervisors to Managers, is a positive step forward for the organization. Central to this transition is the Parks and Facilities Coordinator, who if hired would carry on the key day-to-day operational responsibilities previously managed by Supervisors. This shift ensures that frontline needs are met effectively while freeing Managers to dedicate their time to higher-level priorities such as strategic planning, interdepartmental collaboration, securing funding opportunities (grants, sponsorships, naming rights), building partnerships, and overseeing overall administration. By positioning the Parks and Facilities Coordinator at the core of daily operations, this structure strengthens our leadership capacity, improves efficiency, and sets the organization on a path for long-term growth and success.

**II. Background - Current Service Level (Describe the existing level of service provided)**

The Parks and Facilities Coordinator is a newly created position established through the staffing model endorsed by Council. Previously, the responsibilities now assigned to this role were carried out by Supervisors, who have since been elevated to Managers. As a result, the workload has remained with the Managers, limiting their ability to focus on higher-level responsibilities.

**III. Risks - (What are the risks/consequences of not implementing the change? Is there urgency?)**

Without the Parks and Facilities Coordinator, the department will face operational slowdowns, strained leadership capacity, and reduced service responsiveness. The Operations Manager will be pulled into day to day tasks, limiting their focus on strategic priorities like planning, partnerships, and funding. Frontline staff may become overburdened, and service gaps could emerge during absences. Ultimately, this would undermine the goals of the restructuring, hinder growth, and risk a decline in both service quality and staff morale.

**IV. Recommendation - Proposed Service Level Impact**

The proposed service level impact of hiring a Parks and Facilities Coordinator would be a more effective distribution of responsibilities. Managers would be able to dedicate their time to higher-level priorities such as strategic planning, partnership development, and securing funding opportunities, while the Coordinator would oversee the key day-to-day operational responsibilities. This balance would improve efficiency

within the department, ensure timely responses to operational needs, enhance the overall quality of parks and facilities, and ultimately deliver better service to the community.

**Municipality of Strathroy-Caradoc**  
**Change in Service Level**

<b>Request Department</b>	2. 3 Seasonal Summer Staff		
<b>Version</b>	Community and Development Services	<b>Division</b>	Community Services

Description
<b>I. Executive Summary - Overview of Proposal (How/ Why)</b>
Strathroy-Caradoc's ongoing growth, rising community standards, and year-round operational demands across parks, trails, arenas, and municipal facilities have significantly increased the workload for the Community Services Department. Continual complaints regarding issues such as insufficient line trimming, weed control, and general upkeep highlight the strain on current resources and the growing gap between service expectations and delivery capacity. The addition of three Summer Seasonal Staff is essential to address these concerns, maintain high-quality standards, and ensure the municipality can continue delivering reliable, responsive service to residents.
<b>II. Background - Current Service Level (Describe the existing level of service provided)</b>
The current level of service is such that staff do not have sufficient time to address all areas in a timely manner, resulting in numerous untrimmed fence lines, overgrown weeds, and general untidiness. Continual complaints from residents further highlight the need for additional resources. The addition of three Summer Seasonal Staff is essential to address these concerns, maintain high-quality standards, and ensure the municipality can continue delivering reliable, responsive service to the community.
<b>III. Risks - (What are the risks/consequences of not implementing the change? Is there urgency?)</b>
If the three Summer Seasonal Staff are not hired, the Community Services Department will continue to struggle to keep up with operational demands, leading to untrimmed fence lines, overgrown weeds, and untidy parks and facilities. This could result in increased resident complaints, lower public satisfaction, potential safety hazards, and added stress on existing staff, negatively affecting overall staff morale and the municipality's ability to maintain high community standards and support recreational growth.
<b>IV. Recommendation - Proposed Service Level Impact</b>
The proposed service level impact of hiring three Summer Seasonal Staff would be a significant improvement in the maintenance and appearance of parks, trails, and municipal facilities. These staff would be able to address day-to-day operational tasks such as fence line trimming, grass cutting, weed control, and general upkeep, ensuring a more timely and consistent level of service. This would reduce resident complaints, enhance overall community satisfaction, and improve staff morale by alleviating workload pressures.

**Municipality of Strathroy-Caradoc**  
**Change in Service Level**

<b>Request Department</b>	<b>Communications Assistant Position Addition</b>		
<b>Version</b>	Economic Development and Community	Division	Communications

<b>Description</b>	
<b>I. Executive Summary - Overview of Proposal (How/ Why)</b>	
<p>The addition of a Communications Assistant was approved in principle through the Staffing Plan presented to Council in 2025. As the corporation grows there is an expanded need for communications support to ensure consistent messaging that aligns with Municipal Communications and Social Media Policy and Branding Guidelines. To support exceptional customer service creation of content to support information requests will continue to expand. Specialized communication skills will ensure alignment with Corporate Strategic Plan.</p>	
<b>II. Background - Current Service Level (Describe the existing level of service provided)</b>	
<p>Currently, there is one Communications Coordinator that supports the entire municipality. The Municipality delivers on 321 services and functions that require support from Communications whether it is document creation, promotional material creation, website content, registration support, social media posting, press release creation, presentation formatting, and much more. On September 15, 2025 the Customer Service Strategy and Implementation Plan was presented to Council that included increased Communications that aligns with Policy and Guidelines. This will require resources beyond one staff person to manage corporate communications.</p>	
<b>III. Risks - (What are the risks/consequences of not implementing the change? Is there urgency?)</b>	
<p>Growth of the community and ratepayer expectations for access to information will continue. The importance of distributing timely, accurate information will continue to be a priority for the Municipality. This affects all departments of the corporation. There is no back up for the current coordinator which places Strathroy-Caradoc at risk when it comes to urgent issues.</p>	
<b>IV. Recommendation - Proposed Service Level Impact</b>	
<p>The Municipality will be in a better position to ensure that municipal messaging is delivered in a professional manner on a continual basis with no service gaps. Enhanced provision of information will provide better customer service with up-to-date data. Municipal departments will be better served to deliver consistent content that aligns with Policy and Guidelines and is recognized as official communication from Strathroy-Caradoc.</p>
